Professional Experience Summary

Allison is a Manager in Ernst & Young LLP’s Risk Advisory Services practice located in New Orleans, Louisiana. Allison specializes in the delivery of Fraud Investigations and Dispute Services.

Allison graduated from the Loyola University New Orleans in 2000 where she earned her Bachelors degree in accounting and international business. Allison has served in the Houston, TX and New Orleans, LA offices during her career. Allison has helped to provide assistance to clients in fraud investigations, lost profits analysis, arbitrations, and other forensic accounting matters.

Client Engagements

- *Business Loss* – Performed business loss calculations for a major non-profit hospital after a natural disaster flooded the facility and left the hospital inoperable for over one month. These losses were submitted against insurance coverage and to FEMA for the hospital.
- *Financial Analysis* – Audit claims relating to fuel cost allowances against refunds owed to the State of California during the power crisis of 2000-2001. Over 20 companies were involved in the project.
- *Bankruptcy* – Assisted creditors’ attorneys in bankruptcy proceedings by reviewing, analyzing, and concluding on the accounting treatment for complex financial transactions. The analysis involved heavy GAAP and GAAS research on technical accounting issues.
- *Lost Profits Analysis* – Performed several financial analyses on a lost profit cases involving an ammonia production plant, polyvinyl chloride, among others.
- *Tax Matters* – Prepared cost calculations qualified research credits for a large chemical company. This company requested these calculations to support their tax filings to the IRS.
